

BUFFALO GOLD COIN

Due to the volatile gold market, please call for availability and price.

Buffalo Gold Coins: New U.S. Mint .9999 fine Gold Coins

The Prospector Jewelers is pleased to introduce the sale of The United States Mint's new line of 24-karat gold coins. Production of these highly anticipated coins is authorized by Public Law 109-145, dated December 22, 2005, also known as the Presidential \$1 Coin Act.

The new US Buffalo Gold coin's obverse and reverse designs feature images originally prepared by noted American sculptor James Earle Fraser, once a student of Augustus Saint-Gaudens, for America's 5-cent coin (nickel). That popular coin, known as the Buffalo Nickel, was introduced in 1913 and showcased the native beauty of the US West

The US Gold Buffalo Bullion Coins are the first .9999 fine 24-karat gold coins ever struck by the United States Mint. The Prospector is offering these \$50 face value gold coins to those seeking a simple and tangible means to own and invest in 24-karat gold in the form of legal tender coins whose content and purity is guaranteed by the United States Government. All 24-karat US Gold Buffalo Bullion Coins are struck at the United States Mint at West Point, NY .
